1. Activating a phone

To activate a phone you need (1) an extension number, (2) a phone, and (3) a PIN. The administrator can provide you with an extension number and default PIN.

1. Connect one end of an Ethernet cable to the network LAN jack and the other to the phone port marked by the  symbol on your 5220 phone.

2. If you also need to connect your computer to the LAN, connect an Ethernet cable from your computer's network port to the phone port marked PC.
3. Connect the phone power pack into a power outlet.
4. Wait for the phone to display the following (this may take 30 seconds or more):
5. Press the **ACTIVATE** soft key. The display will show:
6. Enter your extension. If you have login/logout privileges, the display will show:
7. Enter your PIN
8. Press the **ENTER** key. The display will show: where xxx is the extension of your phone. You have now successfully activated the phone and are ready to make calls.

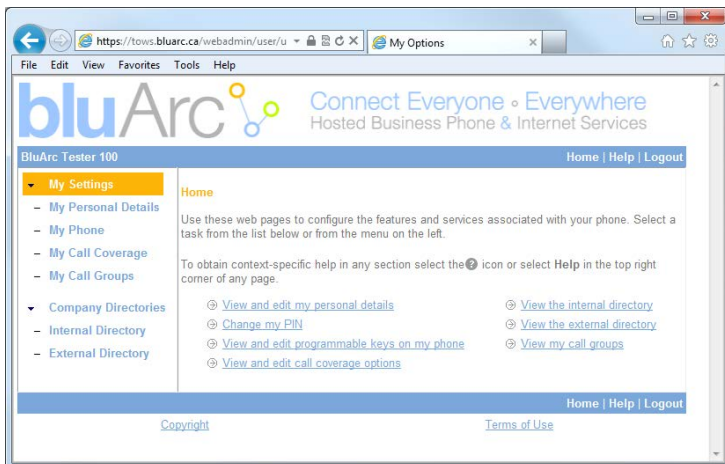

2. Logging in to the web administration interface

To log in to the web administration interface, follow these steps:

1. Open your web browser (Internet Explorer 6.0 or higher or Mozilla Firefox 1.5.0.4 or higher).
2. Enter the URL for telephone users (provided by your administrator). The Login screen appears.
3. Enter your extension and PIN (provided by your administrator). Your personal Home Page will appear.

For assistance on performing any of the functions on this page, select **Help** or refer to the **Mitel IP Phone User Reference Guide**.

4. Setting up your call coverage

Call coverage allows you to specify where calls you do not answer should be directed. Call coverage options include voice mail, an auto attendant, a co-worker's extension, or another phone number such as your home number or cell phone. To configure your call coverage, follow these steps:

1. Log in to the web administration interface
2. Select **My Settings** in the left menu.
3. From the menu appearing in the main frame, select **View and edit call coverage options**. The main frame will display the call coverage options. Follow the on-screen instructions.
4. Select the **Save** button to save your changes.

3. Programming memory keys

To customize your phone features, follow these steps:

1. Log in to the web administration interface.
2. Select **My Phone** in the left-hand menu.
3. Select **Mitel 5220 IP Phone** from the Phone Model drop-down list if this is not already displayed.
NOTE—The phone that you are currently logged into will be marked with an *.
4. Select the memory key that you want to program.
5. Enter the information in the fields displayed in the **Program Memory Details** window.
6. Select **Save** to save your changes or **Close Window** to cancel your changes.
7. Select the **Print Key Labels** button.

5. Recording your name announcement

Callers hear your recorded name announcement as confirmation when they use the auto attendant name directory to contact you.
NOTE—The recorded announcement is for the auto attendant. It is not your voice mail greeting. To record, or re-record your name announcement, follow these steps:

1. Log in to the web administration interface.
2. Select **Personal Details** in the left menu.
3. Select the **Record** button on the **Personal Details** page.
4. When a **Record Prompt** pop-up window is displayed, follow the instructions.
